Technical Specifications

Construction

ANP Lighting RLM shades are constructed of heavy duty spun aluminum. Wall mounts and driver/ballast housings are casted from 356 aluminum. All fasteners are stainless steel. Our standard paint finish is a polyester powder coat, provides superior gloss, color retention and scratch resistance, and is suitable for indoor or outdoor applications. Inside of shade is a reflective white finish for all colors except the galvanized paint finish. Screw hardware is stainless steel and may not match fixture finish. Incandescent lamps not included.

LED

ANP Lighting LED RLM fixtures are powered by Cree® LED modules. CRI is 90. 50,000 hours at L70. See specification sheets for availability of 0-10v, ELV or TRIAC dimming protocols. GU24 base available on most models.

Certifications

Cord Mounts are UL listed for dry locations. Arm Mount, Stem Mount and Wall Mounts are UL listed for wet locations.

Warranty

1-year limited warranty on the fixture, 5-year limited warranty on the LED module and driver. For complete ANP Lighting warranty, terms, and conditions, please reference https://www.anplighting.com/resources/warranty-terms-and-conditions/
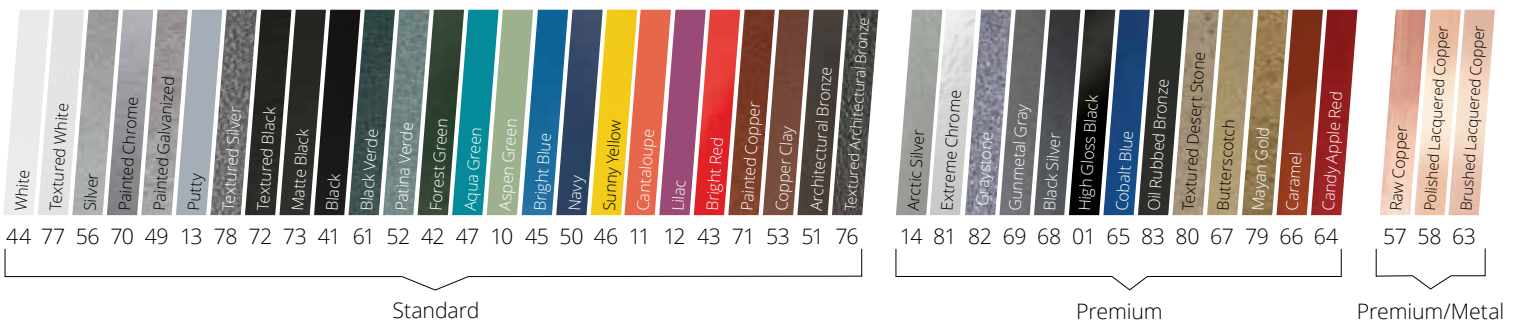

Finishes

Visit ANPlighting.com/resources/color-finishes for more details. Custom finishes available. Marine grade finishes are available. Colors shown may differ slightly from painted color.
