Specifications

RLM shades are constructed of heavy duty

Material:

🕀 鯅 🕀 🕅 Illuminating

Finish:

A polyester powder coat high quality finish is electro-statically applied and baked at 430° for exceptional durability and color retention.

spun aluminum. Wall back plate and driver housing are cast aluminum. All fasteners are stainless steel. Inside of shade is reflective white finish for all colors except galvanized paint finish. Screw hardware may not match Products undergo an intensive five-step cleansing and pretreatment process for 6 maximum paint adhesion. 11 1/4' paint. Marine grade finish provides superior salt, humidity and UV protection. This coating withstands up to 3000 hours of continuous salt spray, comes with a 5-year warranty and is available in either a textured or gloss Electrical: Universal voltage 120-277 is standard. 0-10V, TRIAC and ELV dimming to 1% protocols are standard for LED modules. (12w is 120v and TRIAC dimming only) surface. See page 2 table for LED module and driver specs, voltage and dimming protocols.. Modifications: 14" Consult factory for custom or modified desians. Certifications: Cord mounts are UL Listed for dry locations. Arm mount, stem mount and wall mount are UL Listed for wet locations.
